

The DecoRad[®] Handmate UV600 is supporting the Floormate for corners, edges and other difficult to reach areas. The Handmate UV600 is the ultimate tool for instantly curing UV (floor) coatings. The floor can be used straight away. The Handmate UV600 is a very safe, portable, versatile and lightweight UV curing machine that is particularly suited for the wood and resilient floor range. For mineral floors we recommend the use of the Handmate UV1800.

Handmate UV600

Benefits of UV Floor curing

- The object can be used straight away
- Minimal inconvenience
- Easy to clean
- Eco friendly lacquers
- Industrial quality

UV coating and equipment

Worldwide formulators develop their UV curable coatings with DecoRad UV equipment. A matching UV formulated coating results in an industrial quality finish. A proper how-to-operate & safety training is required and is provided by DecoRad or one of our local partners. DecoRad offers a complete range of on-site UV curing equipment including handhelds and accessories. Fast growing markets are resilient and line-marking.
